Shelf Spacing Guidelines	
Number of Shelves	Shelf Spacing
7	7"
5	10-1/2"
4	14"

Features

- Tilting shelves lift up and out of the way for ergonomic loading and unloading
- Fingertip force required to lift shelves
- Assisted hinges
- Adjustable shelf height ideal for varying part and core size production
- Heat dissipating lift handles
- Heavy-duty shelves
- Large industrial casters for easy mobility
- Eliminates typical "dead" areas of rack as all shelves are easily accessible
- Reinforced base is designed for fork truck handling
- Locking bar prevents accidental dropping of shelves
- Rack holding capacity of 2000#
- Easy to clean and store

Standard Rack Specifications

- 2000# Capacity (250#/shelf)
- 3 standard sizes. Custom sizes available.
- Seven shelves maximum including non-tilting reinforced base
- Shelf Size: 29-1/2" x 68"
- Weight: 510#
- Overall Dimensions: 31-1/2" Deep x 69" Wide x 58-1/2" Tall

Options

- Virtually any rack configuration and sizing are available. If our standard rack does not meet your specifications, tell us what you need.
- Towing bar for in-plant towing
- Double shelved units (shelves on both sides of upright)
